Postal Address: 554-M Model Town Lahore.

○ Career Objectives

To gain experience, to improve my skills and to secure a challenging position in a dynamic organization where I'll be able to utilize my core competencies and expertise in the field of Programming that will be beneficial for both the organization and my own professional growth.

○ Skills

- Application Development (using **React Native** and **Java**)

- Website Development (using **React.js** and **WordPress)**

- Programming skills in: C, C#, C++, JavaScript and Java (Along with **DSA** and **OOP**).

- Basic knowledge of game development using **Unity**.

○ Semester Projects

I have done various console-based projects in **C++** in university. Like:

- Bank Management System
- Blood Bank Management System
- Lahore Zoo Information Management System

Also, I have done some side projects in **React.js**. Like:

- A web-application named **TextUtils** using react.js. That can perform various operations on text.

- A web-application named **mercpk.com** using react.js. It is a personal site of a doctor on which user can buy medical books, make an appointment with doctor and post research and blogs.
